Dear Mr Goh

In reviewing the results of the examinations, I was very impressed to note how well you have performed in the First Year Examination for the Degree of B.Eng in the academic year 1996/97.

You have distinguished yourself by ranking amongst the best in a class of one thousand one hundred. This is highly commendable and we are delighted with your performance. I am pleased to convey to you my congratulations, in particular, that of your teachers.

We hope you will continue to find intellectual enjoyment and stimulus in your studies here. I shall follow with much personal interest your progress in the studies you will be undertaking in this University.

With best wishes for further success,

Yours sincerely

Professor Victor Choa
Associate Dean of Engineering
